Education

Francis Xavier Engineering College

Oct 2021 - May 2025

Bachelor of Engineering in Computer Science 82%

Experience

Nanomyte Productions Pvt Ltd

June 2023 - July 2023

Developer Intern

- Developed responsive web applications and improved user interface performance.
- Contributed to website development through front-end design and feature implementation.
- Assisted with SEO, social media updates, and digital marketing activities.

InternPe (Remote)

Dec 2023 - Jan 2024

Frontend Developer Intern

- Designed and developed responsive web interfaces using modern front-end technologies.
- Collaborated on development tasks, debugging, and problem-solving.

Projects

SmartHire | Java, Spring Boot, MySQL, Postman

- Developed a recruitment management system to manage jobs, candidates, applications, interviews, and results.
- Implemented REST APIs with Spring Boot, Spring Security, JWT authentication, and role-based access control.
- Integrated MySQL using JPA and Hibernate for efficient recruitment data management.

Library Management System | Java, Spring Boot, React.js, MySQL, Axios, Postman

- Developed a full-stack library management system to manage books, members, and borrowing/return operations.
- Implemented REST APIs and CRUD operations using Spring Boot, JPA, and Hibernate with MySQL database integration.
- Built the React.js frontend using Axios and React Router, with form validation and API integration, and tested APIs using Postman.

CraveCart | Java, Spring Boot, React.js, MySQL, JWT, Postman

- Developed a full-stack food ordering system to manage restaurants, food items, customers, carts, and orders.
- Implemented JWT authentication, role-based access, REST APIs, and MySQL database integration.
- Built the React.js frontend with food search, cart management, and order tracking.

Skills

Languages: Java, HTML, CSS, JavaScript, SQL

Frameworks & Technologies: Spring Boot, Hibernate, JPA, JDBC, React.js(Basic)

Tools: Git, GitHub, Postman, MySQL

- Proficient in Core Java with strong understanding of OOP principles.
- Basic knowledge of Java Collections and Exception Handling.
- Built REST APIs and CRUD operations using Spring Boot and JPA.
- Worked with HTML, CSS, and JavaScript to create dynamic web pages.
- Practical knowledge of database query operations.

Certification

QSpiders - Java Full Stack

July 2025 - April 2026

- Trained in Java fundamentals including object-oriented programming and error handling.

HackerRank - JavaScript

May 2024 - June 2024

- Completed certification covering core JavaScript concepts including functions, DOM manipulation, and event handling.
